## NYRWA Mapping Services

Many sewer, storm water, and water systems need better maps and a way to more efficiently manage their infrastructure. To address these needs, New York Rural Water Association offers mapping services to our members at reduced rates. We have assisted many systems all across New York with mapping of their infrastructure.

## Why Map Your System?

- Asset Management and Maintenance
- Future Project Planning
- Quick Reference and Stake Out Requests
- Preparation for Emergency Response
- Saving Time/Money
- Sharing Knowledge with Present, Future Staff and Elected Officials

We can work with you and your budget. We can provide cost effective mapping services/flexibility on completing sections of your utilities as funding allows. We produce more than just maps, we produce interactive GIS "Smart Maps".
