

## INTRODUCTION

Nathan Wissenbach | Technical Assistance Provider

---

**M**y name is Nathan Wissenbach, Eastern Technical Assistance Provider for NYRWA. My career began in March of 2013 as a water plant maintainer for the Village of Cobleskill. By my second year, I was able to move up to Assistant Water Superintendent, where I helped run a 2A water treatment plant, took on one additional district and helped with the creation of a new district.

I decided I needed to make a change, so in October of 2020, I decided to put in an application with the New York Rural Water Association. In January of 2021, I started with the NYRWA as an Eastern Technical Assistance Provider. I assisted in finding water main breaks for the Villages of Middleburgh, Richmondville,

Woodridge, Bainbridge, Jefferson, and many more. I also assist in line location and any technical assistance you need; the best part of my program is that I can help all private systems like mobile home parks and campgrounds, etc.

The Staff with the New York Rural Water Association are amazing, they love to help and teach. I want to follow in their footsteps, so if you need assistance with anything please do not hesitate to call. Once again, my name is Nathan Wissenbach, Eastern Technical Assistance Provider. I can be reached by phone: 518-828-3155 ext. 340 or email: [wissenbach@nyruralwater.org](mailto:wissenbach@nyruralwater.org). I look forward to assisting you in any way. 💧💧
